PONTOON PREPARATION AND SAFETY TIPS

Scan to find out more

WATER SAFETY CHANNEL

Local water conditions

Have the weather, flow or tidal conditions affected the use of the pontoon?

Shape and Size

Can the task be completed on the pontoon in its current size and shape?

Platform Connections

Have the connections to any structure been checked and are they suitable for the task?

PPE and Rescue

Do the team have the correct PPE for the job? If someone falls in or gets injured how and where will they be rescued?

House Keeping

Can good house keeping be maintained without overloading any areas of the pontoon?

Continual Assessment

Have any of the previous checks changed with water state, debris, task changes and loading?
